Re: 3.5 GHz SAS and ESC Applications (GN Docket No. 15-319)

Dear Ms. Dortch:

On August 21, 2018 representatives of the CBRS Alliance Board of Directors met with Commissioner Michael O’Rielly and his wireless advisor Erin McGrath to provide an update on the Alliance’s activities and to discuss Public Notice DA 18-783 laying out the process for ‘1st wave’ SAS Administrator applicants to submit proposals for Initial Commercial Deployments (ICD).

We detailed the Alliance’s continued membership growth, the launch of our OnGo™ brand and certification program, the growth in our Authorized Test Labs (ATLs), the number of CBSDs that have been submitted for certification, and our upcoming Interoperability Event. We thanked the Commissioner and his office for his leadership in making the Initial Commercial Deployments possible, expressed our agreement with his tweet in which he stated that he was hopeful that ICD would occur by year end, and discussed how to best ensure that ICD operations commence in 2018.

The attached slides were presented.

CBRS Alliance Board Representatives:

Ericsson	Mark Racek, Director of Spectrum Policy
Federated Wireless	Kurt Schaubach, Chief Technology Officer
Google	Preston Marshall, Technical Program Manager, Spectrum Access Technology
Nokia	Chris Stark, Head of Business Development
Qualcomm	John Kuzin, Vice President and Regulatory Counsel
Ruckus Networks	David Wright, Director of Regulatory Affairs and Network Standards

Sincerely,

A handwritten signature in dark ink, appearing to read "David A. Wright".

David A. Wright
